WORK EXPERIENCE

Avanade (Microsoft and Accenture joint venture) **March. 2023 – Present**

.NET Team Leader – E-commerce solution for mBank | Sep, 2023 – Present

Remote

- Leading a team of 3 developers: sprint planning, creating and refining user stories, and supervising development.
- APIs development in .NET 6-8 for a mobile application with CI/CD (Azure/Bitbucket) (microservices).
- Responsible for testing (Unit, Integration, Contract, Performance, E2E)

Backend Software Engineer – Nursing Mobile App | March, 2023 – Aug, 2024

- Prior to my promotion to Team Leader, I developed backend services in .NET 8 for a nursing mobile application (Azure).

Exadel

Nov. 2021 – Feb. 2023

Residents Management Software – .NET Full Stack developer | Jan, 2022 – Feb, 2023

Remote

- Developed web application in Blazor framework (monolith on premise).

US Accounting Company – .NET Backend Software Engineer | Nov, 2021 – March, 2022

- Developed REST APIs using .NET 6 (Azure microservices)
- Collaborated closely with colleagues based in the USA.

Way2Send

June. 2020 – Oct. 2021

.NET Team Leader – WMS software | April, 2021 – Oct, 2021

Warsaw, Poland

- Led a team of 3 developers, gathered requirements from PMs, and supervised development.
- Developed Web API in .NET (monolith on premise).

Full Stack Developer – .NET SaaS Solution | June, 2019– March, 2021

- Prior to promotion to Team Leader, worked as a Full Stack Developer using Angular and C# for an E-commerce solution.
- Created solutions based on client requirements and provided 2nd line support.
- Migrated software from .NET Framework 3.5 to .NET Core 3.0 (monolith on premise).

Additional Projects

- Management Application for Personal Trainers (mobile app .NET + Angular)
- Users and Roles management software (node.js)
